

ABOUT US

Dataprana specializes in **land and power acquisitions** and delivers **cutting-edge data centers and supporting infrastructure construction projects** for various applications. Its use cases include **cloud services, web hosting, ML automation, AI LLM, and digital asset mining**.

WE TURN DATA AND ENERGY INTO VALUE

AT A GLANCE

8+
 years of industry experience

1.5 MW+
 GPUaaS capacity (Q1 2025)

40 MW+
 of available data center space

150 MW
 in combined data center projects currently under construction or due diligence

FOCUS AREAS

AI Infrastructure
 infrastructure for GPU-based AI use cases suitable for colocation and GPUaaS

Digital Asset Mining
 Cutting-edge mining infrastructure for colocation and self-mining

PROJECTED GROWTH

[Phase 1] Mining & hosting

- > Build out initial capacity
- > Allocate for self-mining (~25% of total capacity)

AI

- > Datacenter R&D and proof of concept

2024

[Phase 2] Mining & hosting

- > Optimization of existing operations
- > Scaling of capacity

AI

- > Launch of AI Data Center

+105% vs 2024

2025

[Phase 3]

- > Scale up operations
 - > Identify M&A opportunities
- +245% vs 2024

2026

LEADERSHIP TEAM

ARSENIY GRUSHA
 Co-Founder & CEO

- > Serial entrepreneur and Director of the Blockchain & Digital Asset Mining Association
